30° light distribution

Product description

Cubic spotlights with an innovative compact design. Die-casting aluminium for permanent or portable use on a building or in the garden. Mini body with the driver inside. Swivel design allows you to direct the light in the right direction. Luminaires with black ultra-low glare light source, deep-set LED with black reflector and optical lens for excellent visual comfort. The anti-glare shield accessories can help reduces the glaring effect down to an even lower level.

Technical information

Light source: SMD LED Module
Colour temperature: 3000K, 4000K
Colour rendering index: CRI > 80
SDCM: < 5
Integrated driver: Yes
Luminaire connected wattage: 6 W
Voltage: AC220-240V 50/60Hz
Power factor: > 0.5
Luminous flux: 550 lm
Light optics: 30°
Light distribution: Medium
Protection class: IP65
Impact strength: IK 07
Safety: Class I
Swivel range: 0°-120°
Ground spike made of nylon included: Yes
H2O STOP for capillary action resistant(Optional): Yes
Factory pre-wired with the connecting cable or plug(Optional): Yes
Anti-glare shield(Optional): Yes
Luminaire weight: 0.55 kg

Weatherproof finish: Special process to reinforce the outer layer of aluminium to prevent rust.
H2O STOP: An inaccurate installation of the luminaire with the ineffective connection may lead to water passage along the cable and consequently water ingress in the fitting. "H2O STOP" giving effective protection against water passage along with connecting cables. YouTube https://youtu.be/6UDTtfAPwx0
Anti-glare shield: Cut off the direct glare in the direction of the light source. Totally excluding the blinding effect.
