

# REALITY DIMMABLE GU10 LED 5W RETRO

*Replicates halogen lamps light source and aesthetics*

# REALITY DIMMABLE GU10 LED 5W RETRO

*Available in a range of Colour Temperatures & Beam Angles*

The Reality GU10 LED 5W Retro is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result gives that arc of light we are all used to seeing with halogen.

The GU10 Reality Lamp is equivalent to a 50W GU10 halogen lamp and, like a halogen lamp, is dimmable. It lasts for 25,000 hours and consumes just 5W.

- Replicates halogen reflector
- LED positioned further back for anti glare
- Complies with 2013 Part L regulations
- Fully dimmable with leading edge dimmers
- Equivalent to 50W GU10
- Lifetime of 25,000
- Fits GU10 lampholder
- Emergency option available
