

*One Channel Wireless Receiver Box*

# Introduction

The Wise Box One is a one channel receiver that is controlled wirelessly. We have developed the Wise Box One Channel to place at multiple locations in one garden. The box is small, weatherproof, easy to mount and black, to blend into surroundings. The Wise Box One has advanced software for more flexible programming.

## Wise Box One Key Features

-  Range of up to 200 metres
-  IP68 Rated, suitable for outdoors
-  Control with your smartphone, tablet, Amazon Echo or Google Home\*
-  Controlled by Wise wireless switches, remotes or PIRs
-  Interfaces via IR or RS232 (Crestron, Control4 and RTI)

\*Requires the Wise Daisy Box

# Wifi Controls

## Wise Daisy Wi-Fi Interface

The Daisy Wi-Fi Interface is programmable from the Wise Controls App, to control all Wise Products remotely via smartphone. This works with both iOS and Android devices

Innovative and easy to use: with a touch from a Smartphone or Tablet. You can activate and program the operation of all the installed automations, individually or in groups; adjust the intensity / switch on / off the lighting automatically or manually; create multiple scenarios and recall them at any time.

- Daisy allows you to easily communicate with all the automations from anywhere in the house, even remotely, with Smartphone or Tablet.
- Simple scenario creation and scheduling of weekly timers.
- Allows you to control devices from multiple users.
- Possibility to check the status of the blue series devices.
- 240V Power Supply.

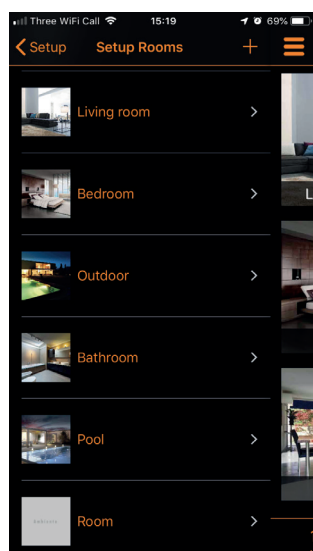

## Wise Daisy Wi-Fi Interface
