

The image features three large, yellow, oval-shaped glass pendant lights hanging from black cords. Each light has a black cap and a glowing yellow bulb inside. The background is a detailed, black and white illustration of several bare trees with thin trunks and intricate branch structures. A semi-transparent grey rectangular box is centered over the middle of the image, containing the brand name and product range.

J.HAWES
GLASS PENDANT RANGE

John Hawes Glass Pendant Shades are created from high quality Venetian glass. The shades are all hand blown in Italy, which gives each one a unique character. The pendants can be hung individually or in groups and when teamed with our LED carbon filament lamps, they give a retro yet contemporary feel to any space.
