SNOW FLAKE

The branches of the Snowflake pendant house LED lights in either blue, cool white or warm white. They attach to a central frame to form a snowflake shape that when lit produces a stunning festive lighting effect. The snowflake can be used to brighten your indoor Christmas decorations or, as it is IP44 rated, can be safely used to add seasonal cheer to outdoor spaces. An integral 24V driver allows the fitting to be plugged directly into a mains supply for easy and convenient installation. The Snowflake comes with a black or white frame and is available in either 32mm or 65mm diameter sizes. This pendant cannot be used with a dimmer.

SPECIFICATION

	SNOWFLAKE 32	SNOWFLAKE 65
Construction	Metal / Plastic	Metal / Plastic
No. of LEDs	260	360
Wattage	25W	36W
Voltage	240V	240V
Diameter	320mm	650mm
Cable Length	4m	4m
IP Rating	IP44	IP44
